We have been very impressed with Karen Slattery. The school has provided a safe and nurturing atmosphere for my son but also clear boundaries. My son has flourished under the care and guidance of this school. He is learning to develop friendships and pro-social behavior. He learns through projects that his teachers develop and has enjoyed different projects focusing on nature, emergency services, planets and the solar system, and all the while learning core skills.

My son looks forward to going to school and seeing his teachers and friends. He knows that he is cared about and loved by the staff. The staff have helped us to understand ways to be better parents and have given us new ways of looking at and thinking about what it means to be a parent.

My son comes home with wonderful artwork that he has made with a picture of him making it. I love the events that the school puts on and how welcoming they are to parent involvement. This is a wonderful school and the staff are knowledgeable and good at what they do.
